TAFT ON FIRST BALLOT IS PLAN

REPUBLICAN LEADERS MAP OUT PROGRAM.

SEE NECESSITY FOR HARMONY

FAIRBANKS MAY BE TAFT'S RUNNING MATE.

FEAR ROOSEVELT SENTIMENT

Unless Nomination Is Made on First Ballot, Stampede for People's Idol Might Destroy Chances of Candidate Finally Chosen.

WASHINGTON, May 11.—Republican leaders in Congress are now working earnestly on a plan to prevent any break at the Chicago convention that might disrupt party harmony and endanger success at the polls in November. Conferences have been held at both ends of the capitol among such men as Senators Aldrich, Hale, Allison and Crane and Representatives Payne and Sherman of New York, Tawney of Minnesota, Jenkins of Michigan, Smith of Iowa; in fact, meetings of small groups from this list have been of almost daily occurrence, for more than a week. They have been directed to one end—a nomination on the first ballot—by which they mean William H. Taft. While no definite result has been reached, they believe their efforts will be successful.

Most of the men figuring prominently in this movement were numbered against Taft early in the campaign, but party policy and the necessity for harmony, which have been manifest in the Republican ranks since the disastrous results of the Blaine-Conkling feud, has awakened a demand that personal desires be subordinated to the will of the majority.

Results Crown Efforts.

That the efforts of the group of leaders back of the harmony movement have not been barren of results is indicated by the fact that to a number of conferences have been called such men as Senators Hemenway, Penrose, Gallinger, Hopkins and Depew, and Representatives Parsons and Vreeland of New York, Boutell and Mann of Illinois, Burke and Dalzell of Pennsylvania, Watson and Landis of Indiana, and others who are backing the candidacies of Vice President Fairbanks, Speaker Cannon, Senator Knox or Governor Hughes.

No attempt is made to disguise the fact that the real impetus to such a concerted movement in the interest of Secretary Taft is the refusal of Roosevelt sentiment to be snuffed out, and the danger of such a sentiment spreading to an extent that might be difficult to control at Chicago. At the same time, it is said the movement is not hostile to President Roosevelt, who admittedly occupies the position of command in the Taft forces. He has made it perfectly plain that nothing can come of the renewed calls for his renomination, which have been made in Texas, Utah and California, as he is prepared to respect any proffer of support, no matter how extended.

Some Opposition to Plan.

The utermost limit of endeavor of the Republican leaders, who are striving to harmonize party differences, is to eliminate all candidates for the nomination except Secretary Taft, but it is not anticipated that all of the candidates readily will agree to this proposition. Supporters of Senator Knox particularly are said to oppose the plan, and one of the other candidates is holding out so strongly that there is no immediate demand for agreement. At the same time, there are leaders in Illinois, Indiana, Pennsylvania and New York who are parties to the movement, with the knowledge of the favorite son candidates from those sections.

Secretary Taft is made the favorite because of the fact that he is the only candidate who has sufficient instructed votes to promise an early nomination. The argument of the harmony faction is that if Taft fails to secure the nomination on the first ballot, and the delegates were able to hold out against him, it would mean a contested contest of many ballots. There leaders have little doubt that in such a contingency the Roosevelt third term sentiment would threaten a stampede, and though they have little doubt that the President would not be there to qualify upon a proposition looking to his renomination, the effect of such a stampede can only be surmised. The possible direr results upon the campaign for the election of the candidate, whoever he may be, is one of the arguments used to draw the recalcitrant allies into the harmony procession.

May Lose Majority in House.

majority in the House is likely to be materially reduced at the fall election, and they fear that unless all factions are brought together before the Chicago convention, they might lose their majority altogether. One of the suggestions, being discussed favorably, is the renomination of Mr. Fairbanks as vice president on the ticket with Secretary Taft, which they assert would remove Indiana from the doubtful column and make it safely Republican. It is believed also that with the Republican forces solidly aligned, Taft would easily carry Illinois. The harmonizers are willing to concede Speaker Cannon's election as speaker by a [illegible] majority.

There is a movement on already to bring about the renomination of Mr. Hughes as governor of New York, and an effort will be made to bring Secretary Taft and Senator Foraker together, which, it is thought, would make Ohio safe.

No efforts have been spared to keep these plans confidential, but there are too many persons cognizant of the program for secrecy to be maintained. Frank H. Hitchcock, who is the Taft manager in Washington and is directing the greater part of the secretary's national campaign, has had numerous conferences with Republican leaders interested in the program, and United States District Attorney Joseph B. Keating of Indianapolis, political manager for Mr. Fairbanks, has been in Washington several times recently and has conferred with the same leaders.

MORE VOTES FOR TAFT.

Louisiana Republicans Instructed Delegates for War Secretary.

NEW ORLEANS, May 11.—With instructions to vote for Secretary Taft, four delegates-at-large and alternates were today selected for the national convention by the Republican state convention. President Roosevelt's administration was indorsed.

The delegates are Pearl Wight, H. C. Warmouth, Henry R. McCall and A. B. Kennedy (negro).

THOUSANDS AT XETLOC

THEATER PACKED TO LIMIT ON OPENING NIGHT.

Holder of Season Ticket No. 2554 Wins Valuable Set of Dickens' Works.

The grand Xetloc prize for last night, a unique and costly set of Dickens' works, went to the holder of season ticket No. 2554. If the holder of the corresponding coupon will call at the Elks club after 1 o'clock today he will be presented with the set by Director General Mark E. Raftry. The set is now on exhibition in Whitney & Grimwood's store.

A double prize, consisting of a gentleman's gold watch and a lady's cluster ring, will be given tonight. The former is to be seen in the window of the Johnson Jewelry company, and the latter at C. B. Lauterman's.

The prize drawing during the week will be under the personal supervision of Mayor D. N. Heizer.

Those who have not secured season tickets should get them today, as the supply will probably be exhausted within 24 hours.

Fully 3,000 people enjoyed the carnival of fun at the Temple theater last night when the Elks opened their big Xetloc which has been well named the modern "Wheel of Fortune," a revival of the pageants of the ancient Aztecs. Could the spirits of the aborigines have been present last night they would no doubt have been mystified by many of the sights and sounds, but they could not deny that the big fair is, in modern parlance, a hummer.

Everybody was apparently bent on taking in all there was to be seen. They realized that they were getting their money's worth, and certainly a more jolly mass of humanity was never seen in Colorado Springs. The theater was one great dazzling blaze of light, and the varicolored decorations in the form of streamers, banners, festoons of flowers, strings of electric lights and arches of evergreen, made the scene appear like a kaleidoscopic picture from fairyland or a pictorial illustration of a tale from the "Arabian Nights." Laughing, jesting crowds added the necessary touch of life to the picture.

Music by the Elks band gave the in-

REACH AN AGREEMENT

REPUBLICAN HOUSE MEMBERS DECIDE ON FINANCIAL BILL.

Vote to Accept Emergency Measure Drawn by Special Committee Appointed by Conference.

WASHINGTON, May 11.—By a vote of 135 to 16, the Republican members of the House of Representatives tonight agreed to an emergency currency bill drawn by the special committee appointed by the same conference last week and consisting of Representatives Vreeland of New York, Burton of Ohio, Weeks of Massachusetts, McKinney of Illinois and Knowland of California. By an equally decisive vote, the conference placed in the hands of the Republican members of the committee on rules the determination of the procedure by which the will of the majority, thus expressed, shall be carried into effect in the House. A resolution to request the banking and currency committee to bring in a report on the March bill, in order to give the House a parliamentary basis for substitution of the conference committee bill, was defeated.

The rule committee has a clause of [illegible] bill through the House. The committee can bring in a rule discharging the banking and currency committee from further consideration of the Aldrich bill or the Fowler currency commission bill or the Williams currency bill. Any of these measures will then be before the House for action, and the procedure would be to strike out all after the enacting clause and under a one-amendment rule substitute for the body of the bill the conference bill.

The conference lasted from shortly after 5 o'clock until midnight, and its close was marked by a sharp dispute which for a time threatened to develop [illegible] along [illegible]

HOUSE OF PEACE TO BE ERECTED

CORNERSTONE LAID AT WASHINGTON WITH POMP.

OF WORLD-WIDE IMPORTANCE

ALL AMERICAN REPUBLICS ARE REPRESENTED.

ROOSEVELT MAKES SPEECH

"We Have a Long Path Yet to Tread Before We Can Speak With Certainty of the Days When Wars Shall Cease," Declares the President.

WASHINGTON, May 11.—Under splendid auspices of patronage and beautiful spring weather the cornerstone was laid today of the proposed home for the international union of American republics, or as Secretary Root aptly called it, "a temple dedicated to international friendship." Three thousand persons, including representatives of political, official and social life in Washington, and who occupied seats on stands composing a great quadrangle, were interested spectators of the ceremony. The decorations were in keeping with the occasion. Flags and colors of 21 American republics floated in the breeze over the grandstands, while the coats of arms of these countries were displayed at many places about the stands.

During the ceremony the flag of each of the 21 countries represented was hauled aloft by a bluejacket from the Washington navy yard and attached to a wire, and when the last one had been placed in position the group made a line of emblems that stretched from one end of the court to the other.

Music by Marine Band.

As they were being hauled up the Marine band played strains from the national airs of the particular country the flag represented.

In the President's stand there was seated the cabinet, the supreme court, the diplomatic corps and members of the Senate and House. John Barrett, director of the bureau, introduced Secretary Root as the presiding officer. Cardinal Gibbons made the invocation.

There were addresses by the President, Secretary Root, Andrew Carnegie and Brazilian Ambassador Nabuco, and reading of cabled messages of congratulations from the presidents of the Latin-American republics.

Bishop Cranston pronounced the benediction.

Secretary Root Introduced.

Director John Barrett, of the bureau, in a very brief talk in which he referred to the great assistance given by Secretary Root toward the accomplishment of the work and his effort in behalf of the advance of the bureau work, introduced the secretary of state, who is chairman of the governing board of the bureau, as the presiding officer. Cardinal Gibbons delivered the invocation, which was followed in turn by an address by Mr. Root, the reading of congratulatory messages from American presidents and addresses by President Roosevelt, Ambassador Nabuco and Andrew Carnegie. Ceremonies incident to the laying of the cornerstone closed the exercises. Inscribed on the cornerstone are the following words:

"Building of the American Republics. Erected through the public spirited gift of Andrew Carnegie and the contributions of all the republics upon land provided by the government of the United States. May 11, 1908."

The imposing international building will stand on an attractive site covering about five acres to the south, and in close proximity to the White house, the State, War and Navy Department building, the Corcoran Art gallery, and that of the Daughters of the American Revolution. It is also near the Washington monument. The dimensions of the building will be approximately 160 by 150 feet, its main portion standing two stories above a high studded basement, and being in turn surmounted by dignified ballustrades.

Carnegie's Gift.

Nearly $1,000,000 will be spent in construction and fitting up the building, of which Andrew Carnegie contributed $750,000. It will be unique, not only for Washington, but in all the world, serving as an international headquarters or offices in one national capital of 21 American nations, the nearest approach to it being the new Temple of Peace, now being erected at The Hague.

President Roosevelt made a notable address, saying in part:

"This is a memorable occasion for all the peoples of the western hemisphere. The building, the cornerstone of which we lay today, emphasizes by its existence the growing sense of solidarity of interest and aspiration among all the people of the new world. It marks our recognition of the need to keep ever closer together all the republics of the western hemisphere through the kindly bond of mutual justice, good will and sympathetic comprehension.

President Thanks Carnegie.

"At the outset, on behalf of all of us I wish to thank Mr. Carnegie for his generous gift—a gift to all the nations of the new world, and therefore preeminently fitting as coming from one who has so sincerely striven for the cause of peace among nations; for while we have yet a long path to tread before we can speak with any certainty of the day when wars shall cease from the earth, we of this western hemisphere, by movements such as that symbolized by this building, have taken great strides toward securing permanent peace among nations.

"[illegible] this republic, I greet the representatives of all our sister republics to the south of us. In a sense, you are our elder sisters and yet the younger people, for you represent a more ancient civilization in this continent than we do. Your fathers, the Spanish and Portuguese explorers, conquerors, lawgivers, and commonwealth builders, had founded a flourishing civilization in the tropics and the south temperate zone while all America north of the Rio Grande was still unmapped wilderness.

"Our battle fleet has just finished its trip around South America, and I wish to thank the rulers and the peoples of South America and of Mexico for the generous, and courteous hospitality which has been shown this fleet on every possible occasion throughout the trip.

Roosevelt Appreciative.

"In conclusion, let me speak of another trip, made a couple of years ago by the secretary of state, Elihu Root, the first time in our history the American secretary of state, during his term of office, left the country to visit certain other nations. Mr. Root made the complete tour of South America, traversed Central America, and afterwards Mexico. He was everywhere received with the heartiest greeting, a greeting which deeply touched our people, and I wish to say once more how appreciative we are of the reception tendered him."

GAMBLING AND DIVORCE

SUBJECTS TO BE DISCUSSED AT CONFERENCE TODAY.

Slocum and Andrews Yesterday's Speakers.—Lindsey Was Sick But Will Be Here Today.

Opening last night with President Slocum's able discussion of "The Unification of Social Problems," the religious and ethical conference at Colorado College will today turn its attention to the concrete problems of gambling and divorce. The general topic for the day will be "The Church and the Community."

Today's program is as follows:

MORNING

"The Church and the Community."

10:00—"Some of the Problems of the Modern Community." Professor Le Roy Culp, of Denver.
Discussion—Dr. R. W. Corwin, of Pueblo.

11:00—"Gambling."
(a) From the legal point of view—Henry Trowbridge, of Colorado Springs.
(b) From the business point of view—W. E. Sweet, of Denver.

AFTERNOON.

2:30—"Divorce."
(a) From the standpoint of the law—Henry McAllister, Jr., of Denver.
(b) From the standpoint of the church—Bishop Charles S. Olmsted, of Denver.
General discussion.

4:00—"The Child," Judge B. B. Lindsey, of Denver.
Discussion—Rev. James B. Gregg, D. D., of Colorado Springs.

EVENING.

8:00—"The Unification of Social Problems." President Slocum.
Address—Judge B. B. Lindsey, of Denver.

R. D. Andrews Speaks.

Judge Ben B. Lindsey of Denver, who was to have been one of the principal speakers last evening, was unable to be present, owing to sickness, but a telegram was received

from him last night stating that he would be able to keep today's engagements. In his stead, Robert D. Andrews of Boston, one of the country's leading architects, spoke last evening, his subject being "Art as Related to Industry."

Mr. Andrews' aim was to develop the threefold truth that fine art is less a product of individuals than of nations, and that the fine art of a nation grows out of its industrial arts. He spoke of the prevalent misconception of fine art as the ministrant to human pleasure, and then proceeded to suggest a higher and nobler view. Any student, he said, who seeks to understand the causes which have brought the fine arts into existence, is led inevitably back to the time when these arts were not in truth fine arts, but industrial arts, when art was the expression not of the individual, but of the national life. Any philosophy that seeks to explain any great work of art apart from the national life in which it occurs, must prove inadequate. Individual effort dies without friction and is the forerunner of popular effort—the first token of a national productive capacity.

President Slocum Speaks.

President Slocum, in the opening address of the conference, spoke words of welcome. He emphasized the pleasure it was to the college and community to have men of national reputation present for the purpose of discussing themes of great importance to the public. He regarded it as a valuable thing that the conference was held at an institution of higher learning, where there is always the [illegible]

NO SOLUTION OF FARM MYSTERY

OFFICERS OF LA PORTE STILL BUSY ON CASE.

LITTLE PROGRESS IS MADE

RAIN INTERFERES WITH EXCAVATIONS ON FARM.

PROSECUTOR SMITH IS READY

Sufficiently Satisfied With Evidence at Hand Against Lamphere to Go Into Court—Grand Jury Will Consider Case of Suspect Next Week.

LA PORTE, Ind., May 11.—The Gunness farm failed to reveal new mysteries today, but excellent progress was made in solving the puzzles already involved in the homestead, which has witnessed the tragic deaths of at least 14 persons. A series of heavy showers made excavating impossible, but between the downpours Sheriff Smutzer and Louis Schultz worked on the apparatus with which Schultz is to sluice the ashes and cinders in the cellar of the ruined house. The heavier pieces of debris and the piles of bricks were cleared from the south half of the basement, and it is thought that the sluicing operations will start in earnest tomorrow.

The sheriff has found difficulty in carrying on work because of the morbidly curious persons who have flocked to the place where ten corpses were discovered last week. Friday the excavating in the barnyard was hindered and Saturday it was halted by the crowds. The grand jury was to have met today to consider Lamphere's case, but this procedure has been postponed for a week.

Experts Advise Delay.

Experts who were called into the affair by Sheriff Smutzer advised this course, although Ralph N. Smith, prosecuting attorney for this judicial district, had announced only a few hours before the decision was made that he was ready to go into court with the evidence at hand.

Since then the case has been strengthened by the discovery of Lamphere's trunk containing several letters which are said to establish his participation in the murder of Helgelein, and by information extracted from a number of persons who were intimate enough with the prisoner to learn from him much concerning his relations with Mrs. Gunness.

If the sifting and sluicing of the ashes in the cellar of the home result in the discovery of yet more evidence, it is likely the case will be pushed toward a conclusion rapidly. Prosecutor Smith is anxious to bring Lamphere before a jury during the term of court which opens today, and will endeavor to clear the docket of several minor cases which are scheduled to be heard.

Evidence of Struggle.

That Andrew Helgelein did not give up his life without a struggle is evidenced by the fact that in one of his clinched hands was a brown tuft of hair, which is said to be closely in correspondence with the hair covering the head of Ray Lamphere who is being held in jail here.

This new phase of the mystery was disclosed in the deposition of Dr. J. H. William Meyer, one of the examining physicians who went into an exhaustive examination of Helgelein's body. After a full report of the heart, loins, intestines and other parts of the dismembered corpse, all of which were found to be in state of almost perfect preservation, he states that one of the hands of Helgelein held the lock of brown hair. He also made his report on the body of Jennie Olsen, the 17-year-old adopted daughter and believed victim of Mrs. Gunness. This body also was found to be in good condition with a few exceptions. In the case of both Helgelein and the Olsen girl, the cause of death is given as unknown. Dr. E. O. Bowell, a prominent physician of La Porte, was for a time the physician to the Gunness family.

Mrs. Gunness an Cleptomane.

Dr. Bowell stated today that it was his belief that Mrs. Gunness was an cleptomane. He had treated her for epilepsy for some time. While attending Mrs. Sorenson, the former husband of Mrs. Gunness, he studied the latter very closely, he says, and came to the conclusion that she was a victim of epilepsy. It is said Dr. Howell's opportunities for observation and gaining an intimate knowledge of the Gunness woman gives his opinion weight.

H. W. Worden, attorney for Lamphere, has made out a petition for habeas corpus proceedings which he says he will present if he is denied admission to the jail of in any way further interfered with by any of the county authorities. While he is strong in the hope that he may not be compelled to go to this length, he says he will do so if exigencies arise which make necessary this action.

Hired to Dig Holes.

William Brogiski, a Polander, living with Mr. Shoemaker, a farmer neighbor of Mrs. Gunness, was called upon during the year of 1906-1907 to dig three holes in the barn lot of the Gunness place. He was told by Mrs. Gunness that the holes were to be utilized for rubbish and farm refuse. Mrs. Gunness [illegible] the dimensions of the holes, which couldn't serve as about these holes bodies have been found. Brogiski says he did not see any rubbish put into them, but upon subsequent visits he noticed that all of them had been filled up and had a covering of old tin cans, bricks and other rubbish.

Wife Got Money.

Sheriff Smutzer today received a letter from Albert Peterson, Isle, Minn., a cousin of Mrs. Gunness' second husband. Peterson states that Gunness advanced a large amount or money to his wife. Gunness was insured in the United Workmen for $2,000. He believes that a child of Gunness by a former marriage who is living with him at Isle, Minn., should be protected and intimates that the will of Mrs. Gunness will be attacked in favor of Jennie Swanhild Gunness, the child in question. The county grand jury met today. The jurymen were told to investigate all murder crimes in La Porte county.

According to stories told in the suburb of Austin where Mrs. Gunness formerly lived, she was not the mother of any of the children who bore her name. Andrew Olsen, a cousin of Max Sorenson, the first husband of the woman, said today:

"It was common talk among the neighbors and even among her relatives that the children were not actually hers, but were adopted in their infancy."

WILL ADJOURN MAY 23

CONGRESS PRACTICALLY FIXES DATE OF CLOSING.

Agricultural Appropriation Bill Passed by Senate Homestead Laws Amended by House.

WASHINGTON, May 11.—At a conference today between the leaders of the House and Senate it practically was agreed that Congress shall adjourn Saturday, May 23.

WASHINGTON, May 11.—The Senate today passed the agricultural appropriation bill, carrying an appropriation aggregating $12,142,146. For building roads and making other permanent improvements in the national forest, $1,000,000, instead of $500,000, as provided by the House of Representatives, was appropriated, giving one-half the amount asked by the chief forester.

Senator Rayner (Maryland) introduced a resolution providing for a court of inquiry to investigate charges against Colonel William R. Stewart, U. S. A., now stationed, by order of the President, at Ft. Grant, Ariz., and stated that he would speak on this subject tomorrow.

The conference on the naval appropriation bills was agreed to.

Today was the fifty-sixth birthday of Vice President Fairbanks, but he was not in the Senate, having gone to Chicago to deliver an address.

WASHINGTON, May 11.—The House today devoted its time to the consideration of miscellaneous business. By agreeing to some Senate amendments to an unimportant local bill upon an antigambling provision, placed as a rider, the House took the final congressional step by which betting on horse races at Bennings will hereafter be prohibited.

A bill authorizing the appointment, as an addition to the regular military establishment, of 50 captains to command the Philippine scouts, also was passed.

The bill amending the homestead laws so as to permit the entry of 320 acres instead of 160 acres of nonirrigable lands in western states was passed.

The bill allowing the state of Idaho and Wyoming 2,000,000 additional acres of land for reclamation was defeated.

CITY VICTORIOUS AGAIN

WINS THIRD IMPORTANT POINT IN PARKING CONTROVERSY.

Judge Morris Dismisses Petition for Writ of Certiorari.—Appeal Looked For.

For the third time the city of Colorado Springs has scored a victory in the spirited fight being carried on by the opponents of the middle parking of Cascade avenue. Judge W. S. Morris of the district court yesterday afternoon sustained the motion of City Attorney W. B. Price to dismiss the petition for a writ of certiorari, filed last week by the opposition. This throws the entire matter out of court, so far as the petition for a writ is concerned, and the petitioner must drop the case or carry it to the supreme court in Denver. That the fight will be carried to the court of last resort is indicated by the motion of Attorney J. M. Hawkins for the opposition, who secured permission from Judge Morris to file an appeal bond and a bill of exceptions within 30 days.

Although Gen. W. J. Palmer and many other wealthy Cascade avenue property owners are in sympathy with the opposition, only the name of Mary Virginia Donaghe McClure appeared as the plaintiff in the petition for a writ of certiorari. The city of Colorado Springs, Mayor D. N. Heizer, the members of the City Council, and the firm of Anderson, Ord and Swope, which had the parking contract, were named as defendants.

As has been published, the petition recited 15 grounds for complaint. Express fraud on the part of the Council was claimed, and it was alleged that not only has the city no right to establish a parking district, since a statute of 1905 vests this authority in the recently-established park commission, but that even the commission can not establish a park in the streets without first submitting the question to a vote of the people. STORMS LEAVE PATH OF DEATH

OKLAHOMA VISITED BY SEVERAL TORNADOES.

EIGHT KILLED; SCORES HURT

FARMING COMMUNITIES SUFFER GREAT LOSS

PROPERTY DAMAGED BY HAIL

Definite Figures on Number of Victims Not Obtainable; May Exceed Present Report—Many Thrilling Incidents Are Related.—Freaks of Storm.

WOODWARD, Okla., May 11. At least eight persons were killed and scores of others injured in the several tornadoes in northwestern Oklahoma, yesterday evening. The dead:

MR. AND MRS. J. HALE, Little Robe, Ellis county.

TWO UNKNOWN PERSONS, Arnett, Ellis county.

DR. J. HOWSER, Vici, Woodward county.

ARTHUR SIBEL, Mutual, Woodward county.

WILL HAND, Estelle, Major county.

MRS. YOUNG, Seiling, Dewey county.

No list of the injured is obtainable at this time, as telephone communication is entirely cut off from the storm-swept area, and the only other means of securing information is by stage. The nearest point to Woodward that the storm struck is Mutual, five miles away. The most distant is Little Rope, in Ellis county, which is 35 miles southwest of this place.

Succession of Tornadoes.

There was a succession of tornadoes between 7 and 10 o'clock p. m. They appeared first in the western part of the devastated district and moved toward the east. The most serious results were in the vicinity of Arnett, where fully 30 persons are believed to have received broken limbs. Nearly all of these victims are residents of the farming districts.

The only town known to have been destroyed is Vici, a postoffice, in the southern part of Woodward county, where it is said not a house is left standing. Postmaster E. A. Speck has asked that a postoffice inspector be sent to report on his office, which was demolished and the contents scattered in all directions.

The report of four deaths at Arnett includes the two at Little Robe and is confirmed by the news that four caskets have been sent overland from Gage to Arnett, Gage being the nearest railroad point.

Thrilling Incidents.

Thrilling incidents are being related by all who have received any information from the storm center. Mr. Hale of Little Robe, was one of the most prominent cattlemen in that locality. Dr. Howser, at Vici, was taking refuge in a dugout when he was killed. A horse was lifted by the wind and dashed through the top of the dugout, burying the victim beneath the entire roof of the dugout and the weight of the animal's body. A horse belonging to Mr. Sibel of Mutual was killed by a piece of 2x4 lumber being driven through its body. At Mutual, 15 young persons had gathered for a Sunday evening social. The storm lifted the house completely off the floor on which they were seated, leaving the floor and the young people unharmed. O. E. Null and daughter of the vicinity of Arnett, were overtaken by the storm while driving. They took refuge in a hollow tree, but their horses were killed when a nearby tree fell.

Reports from the neighborhood of Vici state that the heavy hail that accompanied the storm did much damage to property, crops and cattle. Hailstones measuring five inches in circumference are said to have fallen. As there is a family on every quarter section of land in the storm area, which is a mile wide and about 50 miles long, definite figures on the number of victims are not obtainable.

ROCK ISLAND, Ill., May 11.—A tornado today swept through Mercer and Henry counties, touching several towns and doing considerable damage.

Mrs. Gotch, an elderly woman, was killed at Cleveland.

Was at Coal Mines, North of City, Wednesday Night.

Roy Heisel, the alleged Denver thug who was arrested in that city last week on suspicion of being implicated in the murder of Globe Express Messenger Charles H. Wright, on Rio Grande passenger train No. 1, last Thursday, was brought to Colorado Springs yesterday and was identified at the coal mines as the man who spent Wednesday night in that vicinity north of town. This exonerated the prisoner from suspicion, and he was locked up in the county jail for trial today before Justice W. N. Ruby on a larceny charge. Heisel is said to have confessed to the theft of clothes belonging to Rex Tangbehn, from the retort house of the Colorado Springs Electric company.

MAC DOWELL WON'T APPEAR

Sickness Prevents Engagement.—A Clever Skit Substituted.

Melbourne MacDowell, the once-famous tragedian, who was billed to appear in a playlet with his wife, Virginia Drew Trescott, at the Empire theater this week, has canceled the engagement, owing to the serious illness of Mrs. MacDowell. The invalid will probably be brought to Colorado Springs to recuperate.

Manager Robert Ellis of the theater is in Leadville, and in his absence Henry Lubelski of Denver yesterday arranged for Haines and Montgomery to appear in place of MacDowell. They are said to have one of the cleverest acts on the vaudeville stage.

It is hoped that MacDowell will appear before the end of the week.

Too Much Duplication.

The special theme upon which he spoke was "The Unification of Social Problems." It is a great misfortune, he said, that in the attempt to advance the conditions of man and woman there is so much duplication of effort. It is largely the result of imperfect views in regard to man himself. We sometimes speak of his moral nature, his intellectual life, his spiritual nature, as if these were entirely separate things. We send him to church to get his religion, to school to see that his intellect is properly trained, to a home that his morals may be corrected, to the gymnasium that he may gain physical culture, forgetting that when he comes to church he carries his intellect, his moral nature and his spiritual nature with him. Every part of his being is influenced at the same time, whatever the dominating motive that is brought to bear upon his life. Not simply is there this divergence in the institutions with which he is brought in contact, but unfortunately, there is antagonism between organizations and institutions which ought to cooperate for a common end—that is, to produce the best type of manhood and womanhood.

Principle of Unification.

If one should ask, then, what is the principle of unification of all social problems, it should be answered that it is man himself. He is not only a unit, but because he is that he should bring into co-ordination all efforts that tend toward the evolution of the race. Just so long as man is treated as if his religious nature were something entirely apart and separate from the rest of his being, the church will go on in its exclusive way, lacking touch with life in its broadest and largest aspect. If it is felt that the school exists simply to deal with man's intellect, the school will find itself more or less in antagonism to those who would develop his religious nature. So long as the teacher of his morals regards that as the development of a function apart from everything else, so long will there be discord between the great movements that are under way for the development of the individual and of humanity as a whole.

Purpose of Conference.

This conference has been called that these social and religious problems might be discussed from the highest possible standpoint, in order that there might be given to all our religious, educational and ethical movements a still higher and broader aim. We have met that we might encourage one another and send the influence of these meetings out into all parts of our commonwealth and the Rocky mountain region. The function of the college in these days is vastly more than the mere training of students in narrow intellectual pursuits. If it is true to its high privilege, it is sending out into the community and into the life of the country influences that save the nation from evil and put it on such stable foundations that political dishonesty, social weakness, superficial thinking, narrow religious ideals cannot dominate. It is especially the high prerogative of the college to train the characters of its students to send them out for victory in the battle of life. The coming of this conference onto this campus is simply in line with what purports at least to be the reason for the existence of this foundation for the higher learning.

SIX-CLUB LEAGUE

STATE ASSOCIATION TO ADMIT PUEBLO ALL-STARS.

PLANS FOUR GAMES A WEEK

Extension Will Strengthen New Organization.—Jack Shields to Get Tryout on Springs Team.—Shift to Be Made, With Good on Second.

A six-club baseball league, with the schedule of each team calling for four or more games a week, will be the outcome of the proposed extension of the Colorado State Baseball association into Pueblo.

President E. W. Dickerson of the Colorado Springs team, before returning yesterday afternoon to Denver, announced that the Pueblo All-Stars, an independent team, has made application for admission to the state organization. It is expected that this team will be taken into the association, thus increasing the number of members to six: Colorado Springs, Selee's Denver team, the Luxus of Denver, Trinidad, Cripple Creek and Pueblo.

This extension of the league would make it possible to increase the number of games, and would result in the playing of a couple of mid-week games in addition to those already planned for Saturdays, Sundays and holidays. The schedule would be so arranged that there would be no conflict with the Western league dates in Denver and Pueblo. That this arrangement would prove a success is the belief of the league members, especially in view of the large number of tourists who will visit the cities of the league this summer and to whom baseball would be an attraction.

The Pueblo team is composed of the "Waremill Outlaws," a fast organization of last year to which has been recruited a number of Western leaguers this spring. In a game with Cripple Creek at Pueblo, Sunday, it was defeated by a small margin.

TO FORM CITY LEAGUE

FOUR LOCAL BASEBALL TEAMS MEET TODAY.

Schedule Probably Will Extend Through Summer—Other Nines May Join Later.

The City Amateur Baseball league will be launched at a meeting to be held this afternoon. Some of the fastest young amateurs of the Pikes Peak region have been organized into four teams, the Pikes Peaks, Sunshiners, Yeomen and Cave of the Winds nines, and these are the teams which will form the nucleus of the new league.

The meeting will be attended by the managers of these four nines, who will complete the organization, discuss rules and regulations and draw up the schedule. It is probable that other fast teams in Colorado Springs and Colorado City will later be included within the league. The schedule probably will run into the summer months, and may be continued until fall if sufficient interest is awakened.

SUPERFLUOUS HAIR DISAPPEARS LIKE MAGIC

A Lady Will Send Free to any Sufferer the Secret which Cured Her.

Since a child I was distressed and humiliated by an unwelcome growth of hair on my face and arms. I tried all the depilatories, powders, liquids, creams and other rub-on preparations I ever heard of, only to make it worse. For weeks I suffered the electric needle without being rid of my blemish. I spent a great deal of money on various things in vain, until a friend recommended a simple preparation which succeeded where all else failed.

This simple remedy enabled me permanently to find entire relief from all trace of unwelcome hair, and forever end my embarrassment. It is simple, safe, sure, and can be used privately at home, without fear of pain or blemish. It makes the electric needle entirely unnecessary.

I will tell in detail full particulars to enable any other sufferer to achieve the same happy results as I did. All I ask is a two cent stamp for reply. Address CAROLINE OSGOOD, 15 H Vaughan Bld'g., Providence, R. I.

CITY VICTORIOUS AGAIN

(Continued From Page One.)

that the City Council acted under two separate statutes instead of proceeding under one, and as a final point, the petition set forth the claim that even though the Council had acted legally in establishing the parking district, it has no right to tax the property owners for the work, and that the cost should be paid from the general fund of the city.

The petition for a writ of certiorari asked that the entire proceedings of the Council be reviewed from the beginning, with regard to the parking matter, and that its actions be declared null and void.

City's Points Sustained.

The motion to dismiss was based on the grounds that Mrs. McClurg filed her petition prematurely, and also too late, according to the statute of limitations. Her attorney complained to the court that the city's representatives, in this motion, characterized her petition as both too early and too late. Judge Morris, however, sustained City Attorney Price on both grounds in dismissing the petition. He upheld Price in his contention that the petition was prematurely brought, since Mrs. McClurg would be in no way injured by the Council's action in establishing the parking district until formal assessment was made against her property, which has not been done. The court also sustained the city attorney's claim that the petition was ruled out by the statute of limitations, since it was filed after 30 days from the passage of the ordinance by the aldermen. The attorney for the opposition argued that the time of letting of the contract, which was done within the last 30 days, was the point at issue, but Judge Morris took the view of Attorney Price that the passage of the ordinance creating the district was the act to be considered, and that the letting of the contract was but a subsequent action growing out of the ordinance.

Long Arguments.

Mr. Price was assisted by his law partner, former Mayor Ira Harris. J. M. Hawkins of the Denver law firm of Richardson and Hawkins, and an expert in civic parking matters, together with former Senator Arthur Cornforth of this city, acted for Mrs. McClurg. Attorney John S. Wise, Jr., of New York, son of former United States Senator John S. Wise, Sr., is advisory counsel for the opposition. Mr. Price took two hours for his argument, and was followed by Mr. Richardson in a three-hour talk. The city rested its case after the opening argument and took no advantage of its privilege of rebuttal.

FIRE RAGING IN TONOPAH.

TONOPAH, Nev., March 11.—Fire tonight has destroyed 20 business houses on the east side of Main street. It originated in a lodging house on the second floor. A high wind is blowing and the entire city is in danger. The loss already is estimated at $150,000.

THOUSANDS AT XETLOC

(Continued From Page One)

spiring touch of melody to the thrilling life and movement of the scene, and unconsciously the spectators, as they passed from booth to booth, felt their blood flow faster and the spirit of fun was contagious. Until a late hour the building was filled to its capacity, and there was not one of the cast throng who did not seem loath to leave.

Among the most popular attractions is the country store, in which several of the prettiest lady clerks that ever graced the salesrooms of a mercantile establishment are "employed." If the Xetloc does not teach a valuable lesson to the commercial world in this particular, it will not be the fault of the Elks. The business done all evening at the country store would put to shame the biggest bargain day counter rush that ever gladdened the heart of a merchant. Everything is on sale and everything is going at prices that would put a New York department store on the blink in a hurry.

Attractions All Popular.

A strong rival attraction for the country store in popularity is the German village, which occupies space on the stage. There are to be seen the blushing German lasses with their quaint and picturesque costumes and rosy, good-humored faces. The scenery is appropriate and the music and dances help to fill in the picture.

The Mastodonic minstrels are there with the goods and their side theater is packed at every performance. The list of comic and musical artists on the stage includes the following: End men—Bert Wade, Lou Fink, Pearce Kampe, Bob Miller; ballad singers—F. L. Ballard, G. Cogsdale, J. Thornton, Tom Crowe; chorus—S. Peel, R. Lowell, F. Osborne and John Smith; buck and wing dancer—Cotton Wyatt; interlocutor—James Bussey. Fun bubbles over in this show and people get many times their dime's worth.

A competitor to the minstrel show is the vaudeville theater across the way, where comic songs, dancing, occult marvels and sleight-of-hand tricks keep things moving. Buster Deconi, the only survivor from the Pompeii catastrophe, is a marvel that nobody should overlook.

The Incubator Baby.

Among the other attractions is the incubator baby, which is 13 days old and weighs one pound and a half. "He" is under the personal care of Dr. D. I. Christopher and sleeps and nurses his bottle in comfort within his glass case utterly oblivious to the curious crowd of spectators.

The Hungarian fortune tellers, whether from their pretty faces or on account of their skill in the occult art, did a land office business.

The wheel of fortune is "a good gamble," and many were the prizes captured from the fair goddess in charge.

Many of the booths that have been fitted up by merchants of this city, are very beautiful, and the art of the window dressers has been displayed to the best advantage. The decorations and electric light display of the Colorado Springs Electric company is worthy of special mention.

The Xetloc will be continued every evening this week, and it is safe to predict that the theater will be crowded every night.

The grand parade of the Xetloc boosters given yesterday afternoon was the largest and best of its kind ever seen in this city, and attracted thousands of spectators on the streets.

If he is reliable he will tell you it is

PURI-TAN-ATED BRAND COFFEE

Formerly called "DE-TAN-ATED" COFFEE

He will also tell you that whoever buys it once will thereafter hear of no other brand.

The reason for this is that "Puri-tan-ated" is the very best coffee we are able to import. From this high-grade coffee by special machinery we have removed every particle of the bitter tasting, obnoxious, poison bearing cellulose tissue. This tissue contains a form of corrosive, poisonous tannic acid and other deleterious substances to the extent of about 10%.

In buying "Puri-tan-ated" you get real coffee, cleansed and purified, besides being made more delicious and absolutely harmless.

Manitou News

ROAD TO OPEN ON JUNE 1

Will Be Another Popular Attraction for Tourists.

The scenic road to the top of Mount Manitou will be opened for passenger traffic by the Manitou Incline Railway company on June 1 and the work of getting cars and track in readiness for the opening is being pushed. M. T. Brumback of Denver, president of the company, paid a visit to Manitou on Sunday and expressed himself as highly pleased with the progress of the work. The road will add materially to the numerous attractions of the Pikes Peak region.

The Mansions hotel will be opened for the reception of guests tomorrow and Manager E. S. Boswell is superintending the work of renovating the rooms, which is almost completed. Mr. Boswell expresses the opinion that the coming season will be the best in the history of the city, and is making preparations to accommodate his guests in better shape than ever before. The dining room will be opened by June 1.

The improvements in the Soda Springs park, where the band concerts are held, have added much to the appearance of the grounds, and when the sodding is completed the park will be a place of beauty.

NEWS OF THE LOCAL COURTS

An answer to the amended complaint of the plaintiff was filed by the defendants in the district court yesterday in the case of Warren Purdy, a minor, by his next friend, W. E. Purdy vs. the Colorado Springs Automobile company, A. May and E. E. Wade. The defendants claim that the present suit was filed more than three years after the plaintiff informed them that the case would not be prosecuted, he having said that he would drop it after the first trial.

A judgment for $82.58 in favor of the defendant was entered in the district court yesterday, in the case of E. M. De La Vergne vs. the Virginia M. Consolidated Mining company.

Deputy Sheriff J. E. Schofield and Constable W. F. Lambert yesterday arrested King Basham on a charge of assaulting William Jardine. Basham will be tried before Justice W. N. Ruby.

Fox Morrock, Bosman and Sugg Agency company yesterday filed an amended complaint in the district court against the Fountain Suburban Homes company, claiming $700 as 10 per cent commission on land sales, in accordance with the original contract.

In the case of the Teller County Mining company vs. John H. Hobbs, the defendant yesterday filed a demurrer to the complaint in the district court, alleging that it does not state facts sufficient to constitute a cause of action.

A verdict for the defendant has been returned by a district court jury in the case of Taylor C. Collins vs. the Colorado Springs and Interurban Railway company, for $2,625 damages for alleged injuries received. The jury, which took the case Saturday afternoon, returned its verdict at 11 o'clock yesterday morning, which was opened in court yesterday.

A verdict and judgment for $1,432 in favor of the plaintiff was entered in the county court yesterday, in the case of A. Stockbridge vs. J. B. Cassaday.

CITY BRIEFS

DEATH—Word has been received in this city of the death at Leadville, yesterday, of L. Q. Hobbs, formerly of this city, and cousin of Mrs. L. E. Mummah, 424 South El Paso street. Mr. Hobbs was connected with the United States land office at the time of his death.

FUNERAL—The funeral of James G. Moore was held yesterday afternoon from the undertaking parlors of Hallett & Baker.

DEATH—The death of Mrs. Cecilia A. Gillett, 88 years of age, occurred yesterday morning at the home of her daughter, Mrs. L. M. Davis, 719 East Platte avenue. Mrs. Gillette was the widow of the late Ramson A. Gillett and was an old-time resident of Colorado Springs. The funeral will be held this afternoon at 4 o'clock at the residence of Mrs. Davis, and the body will be taken to La Yena, Ohio, for interment.

NEW management at Ye Chelten Inn; first-class meals; turkey dinner Sundays.

STATED CONVOCATION—Colorado Springs chapter No. 8, R. A. M., will hold a stated convocation at two o'clock this evening, for work in M. M. degree.

SOLDIERS COMING—A special train on the Midland road will reach the city today at 2 o'clock, bringing batteries D and E of the United States Fifth field artillery. There are 10 officers and 300 men. General Agent Drew of the Midland went west yesterday to meet the train and will endeavor to have the soldiers parade while in the city. They are on their way from San Francisco to Fort Leavenworth, Kan.

DIRECTORS MEET SATURDAY—The directors of the El Paso Consolidated Gold Mining company will meet in the company offices in the Mining Exchange building next Saturday. Although the formal demand of James T. Burns, that all leases by the company be canceled, will probably be considered, it is understood that his request will not be granted.

MANY ARE GOING—It is expected that the Pythian picnic to be given May 21 at Green Mountain Falls will be the largest ever held at that popular resort. Reports from the surrounding cities indicate that there will be a large attendance from Pueblo, Victor, Cripple Creek and Denver. A feature of the day will be a competitive contest of the drill teams from the various lodges of the state.

THE phone number at Dr. Pauly's office has been changed from Red 1272 to Main 1701.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal diseases if taken in time. For sale by all dealers.

FIVE DIRECTORS RE-ELECTED

Y. M. C. A. Holds Thirtieth Annual Meeting—President C. P. Dodge Sends Greeting.

With a larger attendance and more enthusiasm than has marked any previous similar occasion, the thirtieth annual meeting of the Young Men's Christian association was held last night. The principal business before the meeting was the election of five directors, and the hearing of annual reports of the various officers and committees.

All of the directors whose terms expired were re-elected, as follows: E. B. Simmons, Dr. A. R. Sollenberger, D. A. Skinner, D. Wilson Moore and Irving Bonbright. There are 15 directors on the board and term of office is three years.

The reports show that the association has accomplished a great work during the year. A feature of the meeting was the presence of several charter members, who gave interesting talks on the history of the organization during the last 30 years.

M. C. Gile presided during the evening. There was a large attendance, and following the business of the evening, light refreshments were served. A greeting was received from Clarence P. Dodge, president of the association, who is in Europe.

FAIRBANKS ON SOCIALISM.

THE address of Vice President Fairbanks at the laying of the cornerstone of a Roman Catholic school in Chicago was one that merits attention from all good citizens. We hope it may be printed in full in pamphlet form and circulated.

That a man prominent in a Protestant church should have been asked to deliver such an address at such a time and under such auspices is in itself remarkable. The Roman Catholics have plenty of members perfectly competent for such an occasion, and only a few years ago nobody would have thought of having a Protestant deliver the principal address at a Roman Catholic function, or vice versa. It is an illustration of the way in which old differences are vanishing.

Possibly one of the strongest forces in bringing together Protestants and Catholics in harmony is the very Socialism of which the Vice President spoke. Socialism, wherever found, of whatever variety, or called by whatever name, has always shewed itself a foe to Christianity. There are many different forms of it, and many teachings; but speaking generally, we can say fairly that Socialism would exalt humanity into a God, and dethrone the Lord Almighty. It will have none of a despotism, even of a divine despotism. The dreamers of it think of a sort of apotheosis of man. The general trend of their writing and talk isn't so very different from what it was in France in the days of the Revolution.

But if the dreamers see visions of a perfecting of humanity, so that every man and woman shall be developed until the best of which they are capable is brought out, the practical working of the doctrine is another matter. Mr. Fairbanks put it in a few words: "Socialism levels down instead of leveling up. It is subversive of the whole purpose of republican government. It is destructive of the most powerful factor in our progress, and that is individual initiative. It is a sort of pernicious principle of society and puts a handicap upon genius, ability and thrift."

We suppose that this must be so while human nature is what it is. It is so infinitely easier to level down than to level up. If three men are laying brick on a wall, and one lays a thousand in a given time, another nine hundred, and the third only six hundred, the only way to get them on a level is for the two skillful men to loaf, and come down to their slow companion's standard. No power on earth can make the slow man fast. He can make himself a little faster, if he tries; but what incentive has he to try, when he gets just as much for his day's work as the fast men? The same principle applies in all trades and professions. The visionary dreams of the time when four hours of good fast work a day will be enough to keep everybody in comfort, and leave the other twenty hours for rest and recreation and improvement. The man who is awake knows that nothing of the kind will ever be possible. What's the use of working if not to get ahead—to "better yourself," to start your children out in life with a better preparation than you had?

Socialism may attract some theorists, but it will be many a long day before any considerable number of hard-headed Americans adopt its tenets. One does not wonder at its spread in continental Europe, among the downtrodden and oppressed victims of ecclesiastic privilege and of dominant militarism; but in this country of opportunity and real freedom there is no place for it.

Those members of Congress who were talking of adjournment in the middle of May might as well make up their minds to stay in Washington a month longer. Why not? There is lots that ought to be done yet, and this is the long session, when Congress does not have to adjourn all summer unless it chooses. Suppose it is a presidential year—the conventions can get on just as well without the attendance of Congressmen; and if they must go, it would be easy enough to take a recess for a week and then go back and finish up in good shape.

Not [illegible] many Democratic delegates to the national convention have been elected as Republicans—only about four hundred and fifty up to date, out of more than a thousand. This is natural enough, since the Democrats hold their convention three weeks later than the Republicans. It is too early to make any predictions based on actual choices, but if the present proportion obtains, or anywhere near it, it will be Bryan on the first ballot, or perhaps without any ballot at all.

We believe that most people would be thankful if the Senator from Ohio on the one side, and the President on the other, would cease to publish matter [illegible] the Bloomington incident. Not that justice should be denied or balked, but that a case of this kind is one in which further publicity and controversy hinders rather than helps a just and righteous settlement.

The world is growing better, at least in its standards of morality. It is not so many hundreds of years ago that a man like the Prince zu Eulenburg would have been readily admitted to the best society, and his actions would [illegible] scandal [illegible]

This week is remarkable for the number of its Republican state conventions—no less than ten of them being scheduled. Louisiana had hers yesterday, Idaho and Michigan are scheduled for today, North Dakota, Washington, Montana, California and Oregon for Thursday, and then Texas and Georgia. It is safe to say that most of these will be for Taft.

A baseball game is like a horse-race in this, that it is more fun to see a hot contest between three-minute horses at a county fair than to see Lou Dillon go by herself in two minutes. These teams in the Colorado agreement are well enough matched to make a hot game very often, and the fans are already delighted.

The showing made by the Tigers in the meet with Golden was certainly something to be proud of. With two of their best point-winners all but entirely disabled, they were still able almost to tie the score. This never-give-up spirit is worth half a dozen championships easily won.

We hope that not all the young men who wore white carnations on Sunday will consider that their duty to mother is finished for the year.

AS IN OTHER YEARS.

From the Birmingham Age-Herald.

Baseball and the outdoor sports always prosper in a presidential year.

HARMONY.

From the Buffalo Commercial.

All over the state nowadays one set of the united democracy is denouncing the other set.

CHADWICK.

From the St. Joseph News-Press.

The father of baseball is dead. He ought to have one of the biggest monuments in the country.

CONSOLATION.

From the New York Evening Post.

If the Chesapeake's flag stays in England there's the consolation that American money kept it there.

A MISPRINT.

From the Philadelphia Public Ledger.

Wharton Barker says that he expects to poll "4,000,000" votes. How in the world did the ciphers ever get in?

ECONOMICAL WIFE.

From the Bernard (Kan.) Bee.

A New York paper asks: "Can a woman dress on $20,000 a year?" Our wife does, and she is a large woman, too.

NEWS.

From the New York Herald.

Some persons are disturbed by the fact that evil deeds seem to predominate in the news. Of course! It is necessary that evil be exposed, but good conduct, which is the rule, does not particularly call for the limelight of publicity.

HAPPY MAN.

From the Brooklyn Standard Union.

John Post died in Greene county Saturday at the age of 98. He was the embodiment of sweet contentment with his surroundings, never having been further than four miles from his place of birth. His life helped to convince many of the truth of the saying that "a rolling stone gathers no moss," for he managed to acquire a considerable amount of wealth in his extremely limited sphere.

SUFFRAGE IN DENMARK.

From the Boston Herald.

Both houses of the rigsdag of Denmark have passed a bill supported by the ministry, which gives franchise in all communal elections to all taxpayers, both men and women, over 25 years old, and also to all women whose husbands are taxpayers. The ferment of individualism and liberty is working strongly in northern Europe, and this is one incident of the evolution. Liberal in its refusal to discriminate between the sexes, it is conservative in its insistence that ownership of property shall be required of the voter. Much of the superiority of city administration in Europe is due to the discrimination which is made between voters along property lines.

CANADA SIFTS HER IMMIGRANTS.

From the New York Tribune.

If Canada selects all her citizens as cautiously as her immigration commissioner in London, England, is now doing, the northern empire may some day be what its natives often dream of—the Utopia of the Anglo-Saxon race. The Canadian government is not only opposing most effectively the influx of southern and eastern Europeans and orientals; it is making the English themselves pass a stiff examination to prove their desirability. Fifty prospective immigrants whom the Salvation Army had arranged to send from London hovels to Canadian farms have been held back until the Canadian authorities have investigated each member of the party. It will be interesting to see how long the government can continue this minute and scrupulous control in the face of a growing demand for unskilled labor.

IMMODERATE ATHLETICS.

From the New York Evening Post.

President Eliot has history as well as observation to back him in his opinion that immoderate athletics does not fit a man for success in life. What famous athlete of ancient Greece ever took rank as a great statesman, historian, poet, painter, or sculptor? It would be a long task to enumerate the college graduates who are today spending upon professional baseball teams the summers of the first few golden years after graduation, the very period when they should be bending every energy at their command to the task of getting a grip upon some serious calling. Let unthinking enthusiasm say what it may, there is really but one side to the college athletics question. As an end in themselves, athletic games have no claim whatever to college protection—not to say laudation. They merit recognition solely as they may be employed to keep body and mind in vigor for effective development, and the college faculty which encourages them beyond this point is defective either in insight or in sense of duty.

MISERY OF THE HALF RICH.

From the Seattle Daily Times.

There are really only two classes of happy people on earth—the people who work hard for their simple needs, and the people who are educated from birth to enjoy their wealth and the leisure which it brings. The middle class is eternally [illegible] of the delights of Nebo, possessed of the unattained days of enjoyable leisure. The daughter of a multi-millionaire cannot be happy in the lonely drudgery of a college girl, but the daughter of poor folk, who has struggled all her life and who has never had the advantages to fit her for a life of leisure can never be happy in a gilded parlor where she has nothing to do but fold her hands. She does not know the game well enough to even reverse the twirling of her idle thumbs.

There is nothing more pathetic in all the world than the hard-working business man who has retired upon a fortune which he grows to hate because of the inactivity which it enforces—unless it be his wife, who suddenly finds all of her share of life in the care of servants and has nothing with which to [illegible] it.

ROOSEVELT AND CONGRESS.

From the Philadelphia Public Ledger.

Speaker Cannon's surrender to the desire of the President to secure consideration by the House for the Hepburn bill amending the Sherman anti-trust law and for the so-called anti-injunction bill may be more apparent than real. The disposition of the Senate toward these measures is most uncertain, and even were they to emerge from under the iron heel of the speaker and receive the approval of the representatives, the opportunities for obstruction in the upper branch are so numerous that in the small time remaining of the present session the chances for a successful coercion of the Congress are slight.

Republican leaders in Congress are represented as upholding their policy of inaction as a mere reflection of the popular desire. There was undoubtedly a time when an audible sigh of relief was heard throughout the land upon the adjournment of Congress and the consequent removal of a disturbing influence from the business of the country. There is a deep feeling now that the country has had enough of indiscriminate denunciation and of purely destructive criticism, but there is no reason why Congress should not frankly consider and pass the bills which are reasonable, and just as frankly refuse to pass the drastic measures of whose value there is grave and general doubt.

There is a general feeling that the Hepburn bill by no means meets the end sought to be accomplished, but, on the contrary, would create a bureaucratic agency for the performance of functions which are both legislative and judicial. Nevertheless, nine out of ten of the people of the country are with the President in his desire that the Congress shall not make the difficulty of the problems before it an excuse for dodging them. They agreed with him in his recommendation for four battleships, and they are willing that the practice of the courts with respect to injunctions shall be prudently regulated. In brief, they have no sympathy with the "do-nothing" policy, if it be adopted merely to antagonize the President.

THE MAN AND HIS JOB

By Herbert J. Hapgood

There are two kinds of salesmen: the one who is too poor to earn a salary and the one who is too good to work for a salary. When the employer is afraid that this salesman will not make good, he sends him straight commission basis. He thinks the man is too poor to earn a salary. The salesman, however, makes good. Orders such as were never dreamed of come in faster than they can be filled. The cub business-getter has succeeded beyond the firm's highest expectations.

What then? The boss gets busy with his lead pencil and figures up the commission. Impossible! But he goes over the figures and finds that the young chap is actually getting rich.

"Too much money," he says, and the other members of the firm agree with him. So they decide on a method of procedure and send him a telegram something like this:

"Congratulations. You have won a place on the pay-roll. Hereafter we will give you a straight guaranteed salary of so much. Keep up business and keep down expenses."

The tables are turned. Out on the road the salesman who was too poor to earn a salary now makes up his mind that he is too good to work for one. What's more he moves over to a better hotel and commences to ride in cabs and hires a boy to carry his samples. Then he wires back to his house as follows:

"Not on your life. Will keep up business on commission basis and can't cut down expenses. That or nothing."

Another executive session at the office and the following telegram from the boss to the man on the road:

"If it's that or nothing let it go at that. Expense account O. K. Keep on hustling."

Today's Horoscope

Tuesday, May 12, 1908.

The stars shine on new enterprise,
From aged lips springs counsel wise.

On this 133rd day Mercury is in perihelion and Jupiter is in trine with Saturn and in benefic aspect with the 12-day-old Moon, which is on the Equator.

Transactions between the sexes will be under better signs in the afternoon than in the morning.

Until 2 p. m. buy, especially if dealing with such matter as goods for furnishing houses, domestic supplies of all kinds, garments and gifts.

Push all business with a bold heart and mind, ask favors, seek new orders. Success awaits.

Open new places of business, deal with bankers, or others engaged in handling money, and begin new enterprises.

Elderly persons will give useful advice this day.

The woman with this birthdate will be tempted during the twelvemonth to invest money in a speculation which will probably turn out ill.

The man with this birthdate today will need to look carefully after his business duties this year. Successful prosecution of routine tasks will procure for him a friend who will be able to help in a sudden need.

The girl born this day will encounter difficulties in early life, but after 25 years her prospects seem unusually good.

The boy born today will be careless and untidy in habit, and this will threaten his success.

FAME AND WEALTH.

To the Editor of The Gazette:

A friend of mine is one of the 14 men in Colorado Springs who are mentioned in "Who's Who in America." He has distinguished himself in his profession, and is known for his scholarly publications; but, as is often the case, his income consists chiefly of his slender salary as a college professor. Now the joke of it is that since his name appears in "Who's Who," my friend is flooded with circulars offering him fine opportunities to invest in all sorts of gilt-edge bonds or to buy the most expensive makes of motor cars. Is it not characteristic of the American people to presume that a man who has a national reputation must be rich? As a matter of fact, among the 14 men in Colorado Springs who has distinguished themselves sufficiently to win a place in "Who's Who" only one is a millionaire, and most of them are far from rich.

WILL BRING INDIANS HERE

Redskins Will Be Feature in Cliff Dwellers Canon.

Arrangements are under way to secure the Indians, who will form a part of the Cliff dwelling exhibit in Cliff Dwellers canon, near Manitou, during the summer. It is necessary to have the government's sanction before the Indians may leave their reservations.

A new feature will be added this year in the Indian dances that are given daily. A large party of Taos Indians will be secured, picked members of the tribe, who are experts in the various dances. They will give the buffalo dance, the deer dance and other unique ceremonies that are new to the general public.

It is expected to have the Indians here by the first of next month.

PRINTERS HOME ANNIVERSARY

Institution Was Opened Twelve Years Ago Today.

Today is the anniversary of the formal dedication and opening of the Printers Home in this city. It is also the birthday anniversary of George W. Childs, who, with Anthony Drexel, gave $10,000 to the union printers of the country as the nucleus of a fund for the establishment of the home.

The original cost of the home was $70,000, but during the 12 years of its existence many improvements have been made costing thousands of dollars. The union printers of the country have expended no less than three-quarters of a million dollars in founding and maintaining the institution.

Good for everybody.

Mr. Norman R. Coulter, a prominent architect in the Delbert Building, San Francisco, says: "I fully endorse all that has been said of Electric Bitters as a tonic medicine. It is good for everybody. It corrects stomach, liver and kidney disorders in a prompt and efficient manner and builds up the system." Electric Bitters is the best spring medicine ever sold over a druggist's counter; as a blood purifier it is unequaled. 50c at all druggists.

THE Knights and Ladies of Security will give a social and dance in Robbins hall next Friday evening, May 15. Admission 10 cents. Refreshments free. Music by Prior's orchestra. Come and have a good time.

SCHOOL PRINCIPALS MEET

Discuss Matters in Connection With Closing.

Principals of the various schools of the city met with Superintendent John Dietrich yesterday afternoon to discuss matters relative to the closing of the year's work. It was decided to hold examinations for the pupils of the eighth grade who fail to pass or who have been out, and also those who take summer work, the week before the opening of the schools in the fall. Pupils will have to be recommended by teachers before being allowed to take these examinations. The matter of punctuality was discussed at some length, and certain changes in the note books, pens, pencils, etc., were recommended.

Miss Eva Shannon, teacher in the seventh grade at the Garfield school, was yesterday called to her home in Kansas City, Kan., because of the serious illness of her father, and will probably not return this term. Miss Irene S. Thomas will take her place.

TO INSTALL JOHNSTON

PUEBLO PRESBYTERY MEETS IN SPRINGS TODAY.

Business Session This Afternoon Will Be Followed by Impressive Ceremony Tonight.

Howard Agnew Johnston, D. D., formerly of the Madison Avenue Presbyterian church, New York, and for the last two years a special representative of the Presbyterian general assembly in the foreign mission field, will tonight be formally installed as pastor of the First Presbyterian church of this city.

Preliminary to the installation, a meeting of the Pueblo presbytery will be held this afternoon to transact routine business and to receive Dr. Johnston's letter from the presbytery of New York.

The Rev. E. H. Liles, pastor of the First Cumberland Presbyterian church of this city, as moderator of the Pueblo presbytery, will preside at the evening meeting, which will begin at 7:30 o'clock. He will open the services by propounding the constitutional questions, following which he will declare the pastoral relationship established. The Rev. S. W. Griffin of the Second Presbyterian church will read the scriptures. Dr. Robert F. Coyle, pastor of the Central Presbyterian church of Denver, and a former moderator of the general assembly, will preach the sermon. Following this the Rev. Dr. T. C. Kirkwood of this city will deliver the charge to Dr. Johnston and the Rev. David G. Monfort, pastor of El Bethel Presbyterian church of Pueblo, will deliver the charge to the people. The services will then be closed with the benediction by Dr. Johnston.

A reception to Dr. and Mrs. Johnston will then be held in the main auditorium and lecture room. Words of welcome on behalf of the congregation will be spoken, after which Dr. C. B. Wilcox, pastor of the Methodist church, will welcome the new minister on behalf of the Ministerial association, and Dr. Coyle will speak for the synod and state.

DANTE OFFICERS RE-ELECTED

Misunderstanding Regarding Lease Cleared Up.

The former management was re-elected, and the best of feeling prevailed at the deferred annual stockholders meeting of the Dante Gold Mining company, in the offices of the Reed Investment company yesterday.

Following are the officers and directors: L. L. Aitken, president; W. A. Perkins, vice president; O. H. Shoup, secretary and treasurer, and C. C. Hamlin. N. S. Wilson of Cripple Creek, superintendent of the property, was elected a director in place of Oliver Matthews, who died recently. More than 900,000 out of a total issued capitalization of 1,250,00 shares, were represented at the meeting.

A misunderstanding regarding the Reed and Hamlin lease on the company's property on Bull hill was cleared to the satisfaction of all. It was shown that Mr. Hamlin's interest in the lease is merely nominal, Mr. Reed owning fifteen-sixteenths thereof.

According to the treasurer's report covering a period extending from January 1, 1905, to March 31, 1908, $14,555.57 has been received in royalties. Disbursements for the same period amount to $5,806.97. On March 31, the amount of cash on hand was $8,744.88, and this amount was increased by practically $2,000 during the month of April. The net production of the property since January 1, 1905, has been $153,918.93.

If any one has any doubt as to the virtue of Foley's Kidney Cure, they need only to refer to Mr. Alvin H. Stimpson of Willimantic, Conn., who after almost losing hope of recovery, on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. For sale by all dealers.

J. G. BOURNE PASSES AWAY

Well-Known Springs Man Dies at San Diego, Cal.

Word was received in this city yesterday of the death of John Graham Bourne, at San Diego, Cal., where he went three months ago in search of health. He was 65 years of age at the time of his death, and had lived in Colorado Springs for the last nine years. He is survived by four daughters and two sons. One son, E. H. Bourne, makes his home here, and one daughter is the wife of Charles Graham, assistant cashier of the Exchange National bank. Mrs. Graham is in California, but was not with her father at the time of his death. She will reach San Diego in time to attend the funeral, which will be held today.

MARVIN A. SIMPSON WEDS

Marriage at Wichita Surprise to His Friends Here.

It became known in this city last night that after a courtship of three years, Marvin A. Simpson of 1527 North Tejon street, this city, and Miss Katherine Herrig of Wichita, Kan., were married at the home of Mrs. Atkinson, an aunt of the bride, in the latter city, last Wednesday.

The couple were engaged two years ago, but the engagement was formally broken.

Last Monday Mr. Simpson, accompanied by Samuel H. Buck of the Colorado Springs Electric company, left this city on what was given out as a business trip east.

At Wichita the good offices of Miss Helen Atkinson were enlisted. The differences of the past two years were soon smoothed over, a theater party followed, a new proposal was extended and accepted, and the marriage occurred the following day.

Mr. and Mrs. Simpson have gone to New York and the eastern cities on an extended trip. They will make Colorado Springs their home and will be at home to their friends after June 15.

Both young people are well known here and their marriage will come as a great surprise.

Says This Prescription Cures Rheumatism, and Purifies Too

The most cruel bodily ill to which we mortals are liable is rheumatism. It is a stubborn, torturing and often deadly disease. Frequently it is the ruin of mind, bodily health and fortune. When once it sets in it shows no favor between millionaire and workman. When it does not kill by the heart, it is apt to cripple and deform. Imperfect elimination of waste matter by the excretory organs, the bowels and urinary tract, also the skin pores, results in accumulations of uric acid and poisons in the blood and tissues. The restoration of the functions of the kidneys is absolutely necessary, and the following will undoubtedly do it. It is known far and wide as the "Best prescription," and any honest druggist will mix it for you. It purifies the blood, tones up the eliminative organs and seldom fails to cure rheumatism.

Mix in a bottle, one-half ounce fluid extract buchu, one ounce compound fluid balmwort and two ounces compound syrup sarsaparilla. The directions are to take one teaspoonful after each meal and one at bedtime, drinking plenty of water between meals, but little at the table. At this season nothing better can be used as a tonic and blood purifier.

TO SPEND LARGE SUM

BONDS BEING FLOATED FOR CRYSTAL PARK ROAD.

Report From Boston Says Company Plans Outlay of $1,500,000 at Mountain Resort.

According to reports received last night from Boston, Burgess, Lang & Co., a big brokerage and banking firm of that city, are engaged in floating the bonds for the proposed Manitou Crystal Park railroad and summer resort project. It is stated that plans are rapidly assuming shape for the beginning of work at once on the scheme, which involves the expenditure of $500,000 for the railroad, $500,000 for the construction of a summer hotel, artificial lake, buildings and pavilions, and another $500,000 in general improvements.

J. K. Vanatta, president of the Manitou and Interurban railway and secretary of the Manitou and Crystal Park Railroad company, which is to undertake the work of building the new road and the improvements at Crystal park, said last night that he had just received a letter from the eastern promoters which was somewhat uncertain in tone. They declare that it is difficult at the present time to raise money for such a project, and state that they will probably make a visit to Colorado Springs within the near future in the interests of the scheme.

The franchise which the company holds in Manitou expires June 20 unless work is begun before that time.

WORK STARTS ON HARDWOOD

General Leasing Company Expects to Cut the Jerry Johnson Vein Within Fifty Feet.

CRIPPLE CREEK, Colo., May 11.—John R. Chase of Denver, a well-known mining man, was in the district recently for the purpose of starting operations on the Hardwood property of the United Gold Mines company on the east slope of Ironclad hill. The General Leasing company, incorporated for the purpose of doing a general leasing business in the Cripple Creek district, has secured a two and one-half-year lease, with graded royalties, on a block of the Hardwood claim, between the Hummer and Carrington and Atkins leases.

The company will start operations on the property with a force of several men, which will be increased in a short time. A modern plant of machinery will be installed on a 130-foot shaft on the property and operations started in crosscutting for the famous Jerry Johnson vein, which the operators believe will be cut within a distance of 50 feet. As soon as sufficient room has been obtained sinking will be resumed for an indefinite depth.

EXCELLENT ORE SHIPPED

Lessees on Favorite at Leadville Shipping Ore of High Grade.

LEADVILLE, Colo., May 11.—Since the Favorite lessees near the Ollie Reed broke into ore a couple of weeks ago, they have made three carload shipments of what is probably the finest lead carbonates now being produced in the county. So far the ore is characterized by the principal lessees as being bunchy, opening up to two or three feet and then pinching out again. It occurs in connection with a flint bed and is being followed readily by crosscuts on the level. There is no water to bother, and all that is needed is to get into a substantial shoot of such ore as is now found.

WHEAT MARKET WEAK

LIBERAL SELLING BY LONGS CHIEF INFLUENCE.

July Delivery Closes at Net Loss of 1 3-8c—Corn and Oats Weak. Provisions Dull.

CHICAGO, May 11.—Liberal selling by longs caused a weakness today in the local wheat market, the July delivery closing at a net loss of 1⅜c. Corn was down ⅛@⅜c, oats were ⅛@⅜c lower, provisions were 5c to 20c lower.

The wheat market was weak all day, and prices at the close were from ⅞ to 1c to 1⅜c below the close of Saturday. The May delivery, which was under heavy selling pressure, showed the greatest loss. Favorable weather for the growing crop and declines at the principal European markets were the chief reasons for the weakness. Weekly schedules were favorable for the bulls, the amount on passage showing a decrease of 2,010,000 bushels and the visible supply a decrease of 2,272,000 bushels. These factors, however, had apparently no weakness. The market closed weak and near the lowest point. July opened a shade lower to ¼ to ⅜c higher, at 92½ to 93⅛, sold off to 90⅝ and closed at 90⅞@⅞. May sold between 1.00⅛ and 1.05⅞ and closed at $1.01. Clearances of wheat and flour were equal to 308,800 bushels. Primary receipts were 450,000 bushels, against 824,000 bushels on the same day last year. Minneapolis, Duluth and Chicago reported receipts of 312 cars, against 238 cars last week and 601 cars one year ago.

The corn market was firm early in the day, but became weak later in the session. A decline of ¼ to ½c in the price of cash grain had a depressing effect on options. The market closed weak at near the lowest point. July opened ¼ to ⅜c higher, at 61⅝ to 61½c, sold at 61⅜, and then declined to 60⅝. The close was at 60⅝@⅞c. May sold between 71½c and 69½c. Local receipts were 87 cars, with eight of contract grade.

Oats were weak the greater part of the day. July opened ⅛@¼c higher, at 47½c, and sold off to 46c, where it closed. Local receipts were 259 cars.

Provisions were dull and easy. Shorts were the chief buyers. At the close July pork was off 5⅞c, at $18.42½@18.60; lard was off 2½c, at $9.22½; ribs were 5@7c lower, at $9.35.

FUTURE LOOKS BRIGHT

SPECULATIVE SENTIMENT INFLUENCED BY OUTLOOK.

Stocks Are Irregular, With Heavy Realizing—Piling Up of Bank Reserves Encouraging.

NEW YORK, May 11.—Speculative sentiment today was still under the dominion of the brightened outlook for corporation financing, which has been the ruling influence through the present rise in prices. The piling up of bank reserves and the declining rates for money promise abundant resources for further flotation of new capital issues, and executive officers of the railroad companies feel correspondingly relieved of the anxieties which enveloped them during the paralysis of railroad credit.

How far this influence has already made itself felt is indicated by the estimates of the Journal of Commerce of the total capital issues in April, the figure rising to $239,726,554, as against $207,447,000 in April of last year. This includes the Pennsylvania bond sale, which proved so powerful a stimulating factor on the demand for new issues. The April total is larger than for any previous month this year, and leaves the four months' issues since January 1 at only $51,585,716 less than in the corresponding four months of active financing last year.

The stimulating effects of the Pennsylvania bond issue is expected to be seen in further additions to the list during May, sufficient to bring the figure fully abreast of last year's figures, and the opinion is advanced in view of this showing that the total of new capital authorized during 1908 will not fall short of the $2,102,552,000 authorized in 1907.

Discussion of the Union Pacific issues exceeded the terms and amount continued very active today. That a considerable portion of the loan will be placed abroad is taken for granted, but France and Germany were assumed as more likely destinations for the foreign allotment than London, as in the Pennsylvania loan. Perusal of the bank statement was impressive in its disclosure of the measure of the resources available for new borrowing. The $1,270,324,900 of deposits held by the clearing house banks on Saturday form an absolute record, and the $23,985,[illegible] surplus above the legal requirement of the cash reserve has never been exceeded except in the after-panic period of 1907, when forces of the same nature were at work to cause the accumulation as are in operation now. Confidence in the money outlook founded on this showing was little affected by the prospect of a resumption of gold exports and the large withdrawals of the subtreasury on account of the return of government deposits by the banks. Discount rates in London and Paris declined, and the Bank of England marked down the price of gold, in spite of further purchases for Paris account in London.

Outside of the money outlook there was nothing in the day's developments to prompt hopes of enhancing values.

The stock market showed new stocks being pushed upward which have not been prominent in the rise before. There was heavy realizing at the same time in the recent leaders of the advance. Constant irregularities of tone was the consequence.

Bonds were active and strong. Total sales, par value, $6,564,000. United States bonds were unchanged on call.

DANGER IN DELAY.

Kidney Diseases Are Too Dangerous for Colorado Springs People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Colorado Springs.

Mrs. L. T. Johnson of 138 South Fourteenth St., Colorado Springs, Colo., says: "I can certainly speak very highly of Doan's Kidney Pills. I suffered for some time from a constant dull aching across the small of my back and kidneys. I finally procured Doan's Kidney Pills at the D. T. Butcher Drug Co. They not only freed me from the dull aching across the loins, but my back was greatly strengthened and I was freed from that tired languid feeling which had given me much annoyance previous to using Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

BABYS VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the sight of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass is such that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with dread. Every woman should know that the danger and pain of child-birth can be avoided by the use of **Mother's Friend**, a liniment for external use, which toughens and renders pliable all the parts, assisting nature in its work. By its aid thousands of women have passed this crisis in safety and with little pain.

Sold at $1.00 per bottle by druggists. Valuable book to women sent free.

What the Press Agents Say

ZOO IS BETTER THAN EVER

The Zoo now represents an expenditure of almost $100,000. Mr. Coughlin brought out from Chicago with him S. Arrand, who will manage the resort this season. Mr. Arrand is an amusement manager of many years' experience and will spare no effort or expense in making the Zoo the most popular amusement park in the west.

Among the new stunts added this year is "The Feeler." This has never been used at any park before. It is absolutely new and was built expressly for Mr. Coughlin by one of the greatest novelty amusement manufacturers in the world. "The Lion and the Bride," "Mysterious Elita," and "Pilgrim's Progress," are also new features which are decidely interesting and amusing. "The Old Mill," which is, by the way, the longest in the world, has been entirely rebuilt, winding around among beautiful flowers, with ducks, geese and swans gracefully swimming in Cheyenne creek and the many little lakes, and even in the canal itself, one is forcefully reminded of a trip through the gardens of Venice in a Venetian gondola while listening to the beautiful strains of an orchestra which is hidden in the shrubbery surrounding the mill.

Features added to the Zoo this season are the seals and the alligator "farm," and many rare animals never before exhibited in Colorado Springs. For those desiring instruction in roller skating, the rink will be free every morning and a competent corps of instructors has been provided. Mr. Arrand will cater especially to families and picnic parties who desire to bring their lunches and stay all day in the park. Ladies and children will be admitted free at the gate every day except Sundays and holidays. This is a generous concession on the part of Mr. Coughlin and should be appreciated by the residents of Colorado Springs.

"WAY DOWN EAST" AT FAIRYLAND

Manager Braden has secured a dandy lot of films for the show this week. "Way Down East," taken from the play of that name, is the headliner and is certainly a fine picture. "Error of Justice" is another dramatic picture that you are sure to like. "Tit for Tat," a colored film, is one of the best yet shown and must be seen to be appreciated. Mr. Braden has secured special music for this week. Mr. Harry Frink, late of New York, sings the illustrated song, and Mr. Charles Templeton renders violin solos, assisted by the popular pianist, Mr. Harry Van. Wednesday is ladies' souvenir day, and every lady will be presented with a handsome and useful souvenir. Fairyland grows more popular, and you will miss a great treat if you do not see this particular program. Shows are continuous from 1 p. m. to 11 p. m.

REAL ESTATE MEN TO MEET

Regular Monthly Gathering at Alta Vista Tonight.

The regular monthly meeting of the Colorado Springs Real Estate exchange will be held at the Alta Vista hotel this evening. As usual, it will be preceded by a dinner, which will be served promptly at 6:30 o'clock.

While there are a number of routine matters to come before the meeting for discussion, it is expected that one of the chief features of interest at the meeting will be the subject of the national asociation of realty men that will be formed in Chicago this week. A determined effort will be made by the delegates from Denver to secure the first annual convention of the newly-organized body. The Denver delegation hopes for the support of all the real estate associations in the Rocky mountain region. Seattle, Wash., is the most formidable rival of Denver in going after the first convention, but it is thought that if the rest of the state supports the Denverites, the convention can be landed.

EYE ACHES are not always caused by continuous eye use. A small amount of exertion will cause in a slightly defective eye, an eye or headache greatly out of proportion to the amount of work done. Slightly defective eyes are most sensitive to correcting lenses. In fitting lenses to such eyes great care should be exercised not to get them too strong. Too strong lenses are worse than none. Our examination is most searching and our guarantee of satisfaction amply protects you.
